

## Critical Information Summary

---

### **Information about the service**

The Kinetix Residential NBN plan is a broadband network service which uses the NBN network to deliver connectivity to the Network Boundary Point at your premises.

### **Requirement and Availability**

The Kinetix Residential NBN Plan is only available in areas that are services by nbnco FTTC, FTTP, FTTN, FTTB or HFC. NBN coverage can be found here <https://kinetix.net.au>.

You will require an NBN ready modem, with support for all types of NBN services. Your modem will need to be Wi-Fi enabled if you want to connect wireless devices. If you don't have a suitable device one can be included with this plan or bought outright. A \$10 delivery fee will be charged on all hardware orders.

### **Minimum Term**

Kinetix Residential NBN Plans are available with no fixed term contract, a one-time setup fee of \$99.95 is applicable however this fee is waived with the purchase of a new modem.

### **Information about pricing**

### **NBN Access Technologies**

Our Kinetix Residential NBN Plans can be delivered over the nbn Fibre to the Curb (FTTC) as Ethernet, Fibre to the Premises (FTTP) as Ethernet, Fibre to the Basement (FTTB as VDSL2, Fixed Wireless as Ethernet, or as Fibre to the Node (FTTN) as VDSL2.

### **Battery Backup and Power Outages**

Kinetix Residential NBN Plans delivered by FTTP have the ability to operate during a power outage if a battery backup unit is installed. A battery backup unit is only available for FTTP services. In order for your service to operate during a power outage please be aware that;

- You must have an active battery backup unit installed. This is optional and you can elect to get this installed when you apply for a Kinetix Residential plan.
- Access to the internet will only be available with a battery powered device (like a laptop) by connection directly to the data port (UNI-D) on the NBN Connection Box (NTD)
- During a power outage, the battery will provide power for a limited period of time. A fully charged battery will last between 3 and 11 hours. If the battery is not full charged it may last for less than three hours.
